Group Courtesies and Boundaries

1. Please be on time. We do have a 10 minute grace period, but afterwards, the group is closed.
2. Please do not disrupt the group by making noises while someone is sharing.
3. You are allowed three absences, although not in a row. Three in a row will result in termination from the program. The three absences are for unexcused time off. There is no need to call for these. Any absences must be made up to successfully graduate. More than three unexcused absences will result in an extra group being added (making up the group and adding one more). An excused absence would include a doctor's note, jail form etc.
4. Homework is to be completed and all fees are to be paid prior to successful graduation.
5. Urine drug screens are random. If a UDS is requested of you, a refusal, for any reason, will be treated as a positive. All positives will include an extension of your treatment (four or more sessions added to your treatment plan).
6. Confidentiality is the most important boundary in treatment. It is OK to say that you come to treatment; it is not OK for you to say someone else does.
